# YOUR BACK OFFICE SOLUTION!

## PURCHASE TRACKING

### Truck Deliveries

Vendor invoices are automatically imported into QSROnline prior to truck deliveries.

### Vendor Price Alerts

You'll be notified when vendors increase their prices.

### Zero Paperwork

Digital copies of invoices are stored within our system forever.

### Sync

Simply press a button to import vendor invoices directly into your accounting software.

## INVENTORY REPORTING

### Mobile Counting APP

Easily count inventory from your smartphone or tablet.

### Sheet to Shelf

Each store customizes its own countsheets to speed up the counting process.

### Inventory Price Updates

Vendor price changes are instantly updated on countsheets.

### Actual Food Cost Reporting

Know exactly how much you're spending on food across stores.

## VARIANCE ANALYSIS

### POS Data Polling

Menu items and sales are imported into QSROnline each day.

### Recipes & Subrecipes

Recipes and subrecipes, coupled with sales, provide a detailed ideal food cost.

### Recipe Price Updates

Vendor price changes are instantly reflected in recipes.

### Identify Variances

Pinpoint problem areas, including excessive waste, employee theft and over portioning.

"Working with QSROnline has been a **win-win for everybody**. My clients are getting easier **access to the data** they need so they can achieve better profits while **automating their accounting systems**, and I get to better serve them because we no longer make decisions based on gut reaction. Instead, we use actual numbers." - Ryan G., Owner, The Restaurant Boss
